

## Creating a New Position Description

### Staff

The Create New Position Description action is used to create new position descriptions that are not currently held in OPDRS.

1. Verify you are in the **Position Management** module as a Hiring Manager, Personnel Admin, or Appointing Authority.
2. Hover over Position Descriptions and click on **Staff**. Staff is used for Classified Staff and Administrative Professional positions.
3. Click the **Create New Position Description** button at the top right corner.

4. You will receive a pop-up window to choose the action you would like to start. Click on **New Position Description**.
5. Enter **Working Title**.

7. If you have an existing position description within your department(s) you wish to copy or 'clone', choose that position description from the list at the bottom of the page. This will pull in pertinent information from the 'cloned' position description into this action and allow for edits.

## Faculty

Contact your [HR Service Team](#) with the official Title and Position Number. HRS will create the new Faculty position for you and notify you once the position is ready to submit for job posting.

Please note, a PA/PRR must be submitted to Position Control to obtain a new position number and create the position.

An Open Rank title may also be used when the final title may be dependent upon a new hire's experience. The titles under consideration will then be noted under Working Title. Contact your [HR Service Team](#) if you would like to use this title or discuss options.
