

**FACULTY**  
**BENCHMARK JOB CLASS**  
**Extension Regional Specialist**  
**E-2/0574**  
**E-3/0584**  
**E-4/0594**

**Description Summary**

Positions assigned to this class integrate research-based knowledge to address issues in the county and the surrounding area. The position will draw on the knowledge-base of related disciplines to address major issues impacting the relevant subject matter. Effective program implementation shall include applied research, as well as planning, conducting, and evaluating educational programs addressing concerned stakeholders. There is a strong expectation of collaboration with other WSU faculty members located at Research and Extension Centers, county offices, and other agencies. This position is also responsible for the supervision of both professional and support staff.

The Educator will be expected to acquire, develop, and implement extramural funding and/or develop a fee for service strategy to support and strengthen on-going programs or new program directions. In addition, the Educator will act as a positive force in developing proactive Extension programs through: multi-disciplinary teamwork with colleagues, serving as a facilitator to assist groups in working towards a common goal, and working across the university to maximize the impact of Washington State University in the region.

**Examples of Suitable Qualifications**

An earned Master's degree and appropriate experience.
