**Purpose of this Handbook**

This Administrative Professional (AP) Handbook summarizes Washington State University (WSU or University) policies and procedures for Administrative Professional personnel. It conveys information regarding WSU services, facilities, and employee benefits, as well as other information required by state and federal governments. The handbook is web-based with links to complete information on most subjects. Periodic updates will be provided electronically on the Human Resource Services web site and announced through WSU Announcements. If you have questions about information in the handbook, please contact Human Resource Services at 509-335-4521.

Administrative Professional employees provide key support in the areas of research, public information, development, computer systems and network programming, personnel, legislative relations, internal audit, counseling, graphic arts, extension, and/or continuing education. Others serve as executive heads, principal assistants, managers, supervisors, and serve in related capacities that maintain continuity of operations within the University community. As a group, Administrative Professional employees function as a significant link between the teaching, research, extension, and Civil Service staff who support WSU’s mission.

**About Washington State University**

**A Brief History**

Washington State University was founded March 28, 1890, less than five months after Washington’s entry into the Union, by the first Washington legislature. WSU was established under the Morrill Act of 1862, which provided grants of land to each state for a college providing education in agricultural and mechanical arts as well as in the liberal arts.

The Morrill Act opened higher education to groups who previously had been excluded. In a quiet way, the Morrill Act was a revolutionary document aimed at enhancing the equality of higher education opportunities.

WSU originally was named Washington State Agricultural College and School of Science; however, before the first classes began in January 1892, the name was changed to Agricultural College, Experiment Station, and School of Science of the State of Washington. In 1905, the name once again was changed, this time to State College of Washington. This name endured until 1959 when it was changed to Washington State University. Refer to WSU web site for additional information [wsu.edu](http://wsu.edu).

The Administrative Professional Handbook conveys information about the nature, operation, and organization of WSU, summarizing WSU policies relating to Administrative Professional employees. Neither this handbook nor any University policies, procedures, or practices shall be construed as an express or implied contract of employment or a promise of continued employment. Although this handbook contains a compilation of current policies relating to Administrative Professional employment, these policies evolve over time as the institution and its internal and external environments change. For these reasons, the University reserves the right to revise this handbook, or any of its policies or benefits, or to institute new policies or benefits, provided these changes are not inconsistent with state and federal law. Any such modification applies upon adoption by the University, regardless of previous provisions that may have been in effect. The most current revision of the handbook is available on the Human Resource Services website: hrs.wsu.edu.

The laws of the state of Washington and appropriate Washington Administrative Code provisions also apply to all employees, as does the University’s Business Policies and Procedures Manual (BPPM). A link to the manual can be found at policies.wsu.edu. All University policies are subject to federal and state laws; where there is deemed to be a conflict, the provisions of law apply.
