** In Workday - The Evergreen is what is used to create a pool of applicants for a recruitment. It is what candidates apply to. Once a department is ready to move forward with hiring, they move candidates from the Evergreen to the Job Requisition to complete the hire process.

- The department creates the Job requisition in workday and submits to HRS
- HRS approves the Job Requisition and creates an Evergreen
- The Evergreen is what is "posted" and it is tied back to 1 or more Job requisitions to allow us to hire more than one candidate.

MODERNIZATION/HUMAN CAPITAL MANAGEMENT (HCM)

The Workday Human Capital Management (HCM) team continues to optimize the HR functions of our Workday modules. During 2022, the decision was made to extend the stabilization and optimization period. During this time, the HCM team implemented changes and suggestions from the university community but was largely focused on the needs of state mandated initiatives. The following is a list of high level achievements (not exhaustive).

Going forward, the HCM team will no longer report on routine annual events such as open enrollment or mass salary increases unless significant changes are noted as these items are covered in other functional areas of this report.

- Temporary Non-Permanent rule changes were the primary focus this year. Implementing a new employee type and the accompanying rules was a long-term project. This project was taken through the process of design, configure, test, and iterate over the past 18 months, impacting all areas of HCM and our partners in Payroll.
 - Created new employee type
 - Created new and altered job profiles
 - Created new and altered compensation plans
 - Implemented new time off plans
 - Created new reports for benefits tracking
 - Enhanced reporting for WSU and state agencies
 - Modified integrations to include new employee type data
 - Partnered on new and altered payroll groups
 - Executed communication plan
 - Developed and altered training materials
- AP Compensation Plan is fully integrated
- WSU Exit Survey was moved from Qualtrics to Workday
- Recruitment Incentive program and payout
- Workday Today- a complete change to the Workday user interface
- Faculty Equity adjustments
- Sexual Misconduct Statements as part of recruitment
- Equal Pay Act salary posting changes
- Fair Chance Act as part of recruitment
- Removed all Covid-19 configuration
- Significant enhancements to Reference Guides and Knowledge Base articles for ease of use
- Formed group to focus on Workday training material
- Created and enhanced nearly 30 reports
- Implemented two major Workday updates in March and September
